Double roofcaps, galleries, canopies, scallops

INHERITING A NOBLE ART

For over a century, the Ateliers d'Art Français have adorned the roofs of our towns and villages with their zinc ornaments.

The Ateliers d'Art Français are the only direct descendants of the ornamental metal workers in France of the 19th Century and have been making ornaments in zinc, copper and lead for over 150 years.

Ornamental metalworking is much more than a job, it is an art, the know-how of which is passed directly from the skilled ornamental metal worker to the apprentice. True to the tradition of the arts, the apprentice inherits an age-old tradition through contact with experienced ornamental metalworkers and through day-to-day experience.

Over the years, the Ateliers d'Art Français have collected old catalogues,

architectural plans and dies which enable them to make identical reproductions of period pieces and thus contribute to the conservation of an ancient heritage.

Today the Ateliers d'Art Français offer a range of over 300 decorative catalogue items, some of which date back more than a century and are divided into five main categories:

- Finials, pinnacles and flames,
- Weathervanes and compositions,
- Dormer and bull's eye windows,
- Panels of stamped scales and decorated rainwater downpipes,
- Stamped designs.

The quality of the work of the Ateliers d'Art Français acts as a benchmark for professionals who are asked to work on an ornamentation project.

Ateliers d'Art Français is a brand of the Umicore Group which also produces VM ZINC rolled zinc.

FINIALS, PINNACLES AND FLAMES

4067

All our finials are available in natural zinc and copper. For finials higher than 40 cm a fixing rod has to be used. The heights of finials for supporting weathervanes are in bold type and marked by a ❖.

3412

Height **90 and 180 cm** ❖

4060

Height 30, 40, 50, 60, 80 and 100 cm

4062

Height 50, 70 and 90 cm

3701

Height **100, 150 and 200 cm** ❖

3414

Height 40, 55 and 70 cm

3459

Height 50 cm

3463

Height 45, 60, **90 and 120 cm** ❖

4015

Height 100, **160 cm** ❖

4063

Height 45, 70, **90 and 120 cm** ❖

Square finials

4115

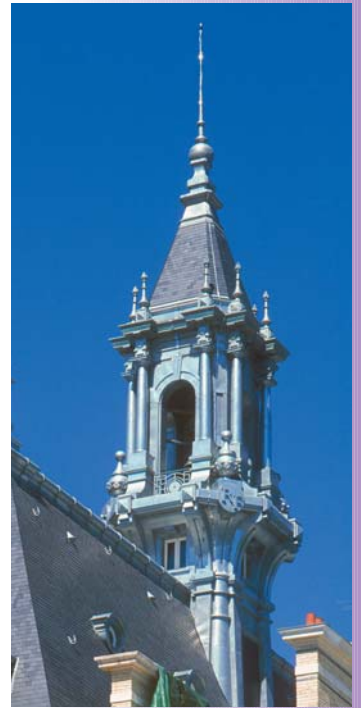

Height 65 and 80 cm

3481

Height 80, 100, 125 and 150 cm

All the square finials are mounted without a fixing rod.

Pinnacle finials

All the pinnacle finials are mounted without a fixing rod.

4064

Height 120, 145 and 175 cm

3601

Height 30 and 40 cm

4146

Height 60 cm

4148

Height 120 cm

4067

Height 100, 120 and 150 cm

Flames

4498

Height 43 cm

STAMPED WEATHERVANES

Our weathercocks can be mounted on all types of rods. Indicate the diameter or the taper.

2242

Breadth 50 cm

For the breadth of weathercocks 2242 and 4154 from 40 to 90 cm, consult us.

2333

Breadth 40, 55, 70 et 97 cm

2336

Breadth 40, 55, 70 and 97 cm

4154

Breadth 40 and 50 cm

2211

Breadth 55 cm

For this range of stamped weathervanes we offer the following models: Chimera, pigeon, ox, lion and horse. They are available in natural zinc and in copper.

2280

Breadth 25 et 40 cm

2547

Breadth 75 cm

2609

Breadth 55 cm

N.B. : The pigeon model does not work well as a weathervane.

2650

3440

Reference 3440

Height 100, 150 and 200 cm made up of:

- finial ref. 3701.
- cardinal points ref. 2971.
- pennant weathervane ref. 2950.

4055

Reference 4055

Height 155 cm made up of:

- finial ref. 4064.
- cardinal points ref. 2969.
- pennant weathervane ref. 2947.

4090

Reference 4090

Height 120 cm made up of:

- finial ref. 4063.
- cardinal points specific to this composition.
- arrow weathervane ref. 2944.

BULL'S EYE WINDOWS

3024

All our catalogue bull's eye and dormer windows are supplied either as front only for facade mounting or with a slope and shaped collar. This range is available in the standard designs and dimensions listed, in natural zinc, QUARTZ-ZINC, ANTHRA-ZINC and copper.

The models shown are for new construction. Their use in renovations may require modifications to the roof frame (consult us).
